

LUXURY AND SUSTAINABILITY

in the Foothills of Marbella's Mountains

A home in the sun: it means a lot more now than it did at the beginning of 2020. Apart from a dream come true for many people, owning a home in the sun now also means having a bolt-hole where they can lockdown in safety and luxury in case of another pandemic, if we are unfortunate enough to have another. And if not... nothing lost.

Our recent period of forced introspection has made most of us think of the really important things in life, and somewhere close to the top of that list comes a home where we can relax, reflect and recharge body and soul. And have a lot of fun doing it.

Coming soon from the award-winning development company BRIGHT is Vista Lago Residences, a place where you will be able to do just that. This new landmark project of 18 design-led, sustainable villas is located on the highest villa plot on the mountainside estate of Real de La Quinta, a 200-hectare residential country club in the foothills of the Sierra de las Nieves mountain range overlooking Marbella.

The setting is unique, with Marbella's iconic La Concha mountain on one side and the exclusive La Zagaleta Country Club & Golf estate on the other, bordering a UNESCO biosphere reserve and yet just a 15-minute drive from Marbella.

Rarely do you come across a project with state-of-the-art architecture, world-class design, dream location and unbeatable views – and this really is the holy grail of views. One of the architects involved in designing Real de la Quinta, Joseph Ginther, said this about it: "From where we are you can see three countries and two continents... That's just an astounding place to be – you don't find sites like that!"

The jewel in the crown of Real de La Quinta will be the largest artificial lake on the Costa del Sol, where watersports such as kayaking and paddleboarding can be enjoyed. There will also be an executive golf course and academy, a chiringuito bar beside the lake, a gourmet restaurant, a small selection of shops, a boutique hotel with spa, an equestrian centre and tennis and pádel courts.

But Vista Lago Residences offers a lot more than a five-star lifestyle and magnificent views. It also offers the priceless commodities of space in abundance and clean air in beautiful natural surroundings. The amenities at Real de La Quinta combined with the facilities of each individual villa – gym, private pool and garden, large terraces, entertainment rooms and offices – mean that owners would never need to leave the resort unless they wanted to. It's an oasis, a true haven where comfort and quality of life is assured, regardless of what might be going on in the wider world.

The exceptional positional design of Vista Lago Residences allows for views over the lake, La Concha mountain, golf courses, and the Spanish coastline to Gibraltar and the African continent beyond, all while sitting in your own lounge! The environment is simply breathtaking.

For more information on this one-of-a-kind project, or to reserve your villa, contact Andrew Lee on (+34) 648 981 111
