

The Talk of the Town

Why has Vista Lago Residences become the most talked about new luxury development in recent years? We look at what professionals in the industry are saying about it.

Knowing who we truly are is information most of us are lucky enough to have zero knowledge of. Knowing what people truly think we are is information most of us choose to have zero knowledge of. Wanting to know who we truly are means asking others, and that takes a great leap of faith.

But **BRIGHT**, developers of luxury properties in Southern Spain and, of course, **Vista Lago**, have faith in what they believe to be the very best luxury

property development on the Costa del Sol in recent times. This is their Vista Lago Residences project, and here we look at what some of the top professionals in the business have said about it.

They have plenty to say about it, because there are many good reasons to choose a Vista Lago villa, quite apart from the fact that it is located close to the most prestigious tourism resort in Spain, that it is right beside a new National Park, that it has been designed

by one of the most reputable architecture and design firms in Europe, that it comprises 18 super-luxury villas that are all different, that all properties are sustainable to a degree quite unusual in Europe as a whole, that the area it is located in, Real de la Quinta, boasts a range of leisure facilities worthy of any luxurious hotel anywhere in the world, including an artificial lake with its very own beach and beach club, and that each villa has been designed to the highest standards possible in today's world.

“ ”

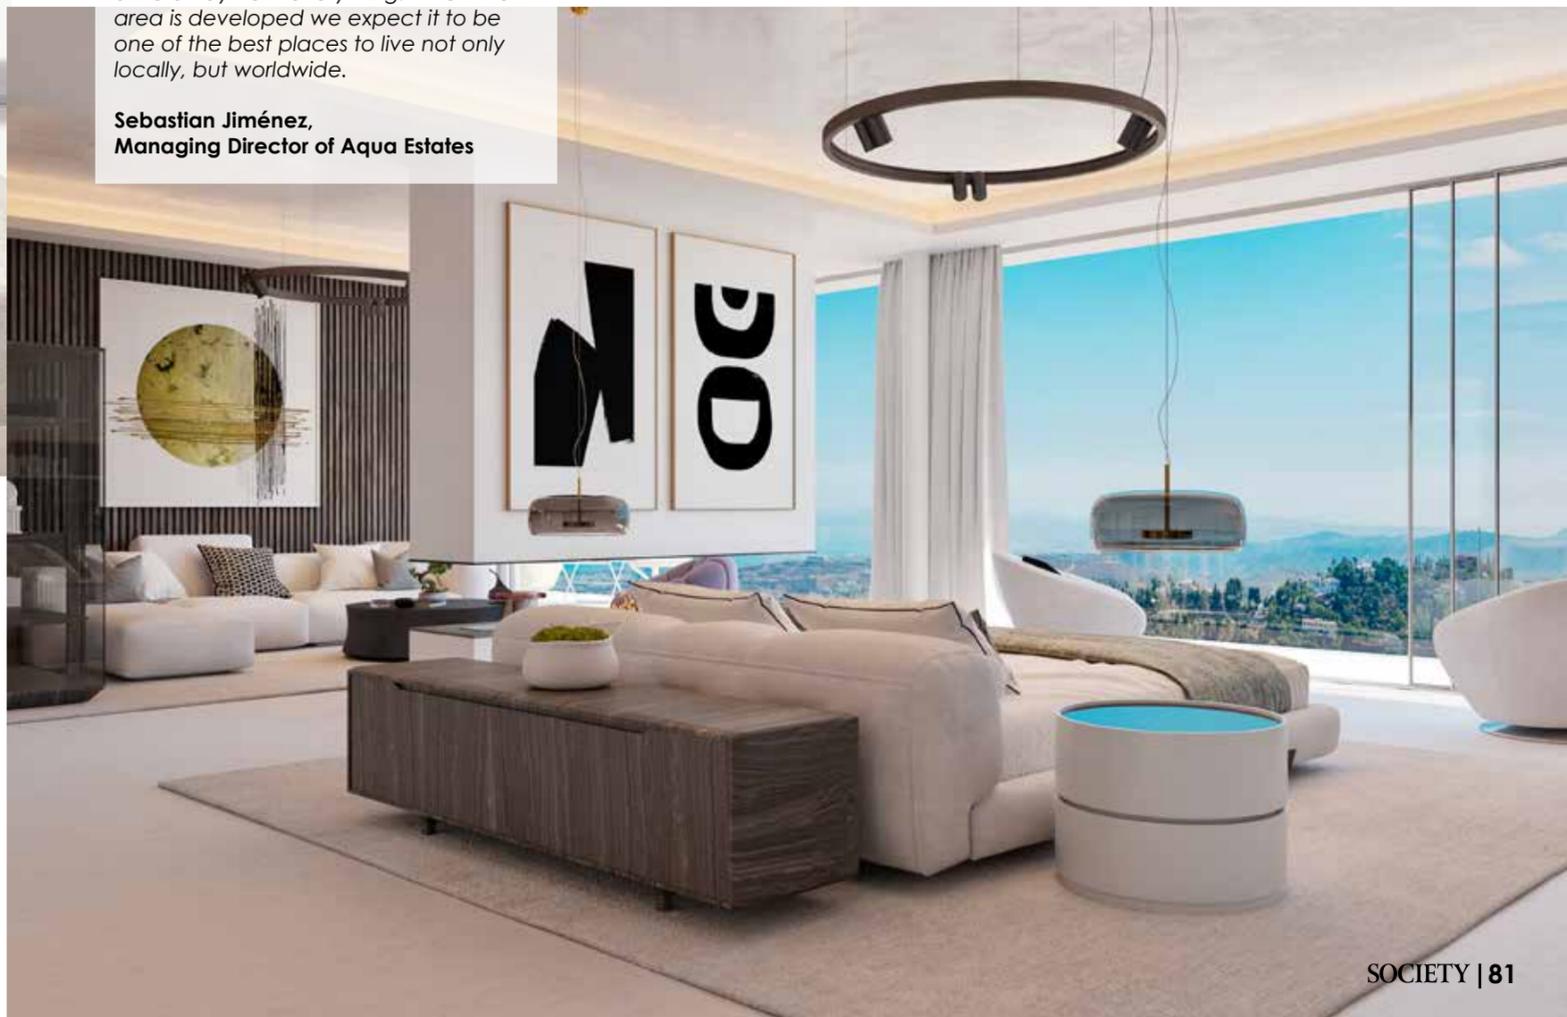

BRIGHT is elevating the level of offered properties on the market, offering the most stunning design and innovation beside a very substantial living solution. This product is definitely much desired by the kind of international clientele that E&V deals with. We are thrilled to offer these villas to our selected upmarket international clients, and believe that this kind of perfection is well needed in this vivid market. Together with our excellent sales force, BRIGHT and E&V have all the needed structure to be a winning team.

Smadar Kahana,
Owner & Managing Director, Engel & Volkers Marbella

It's a fantastic location and by far one of our favourites, for me it's the best of everything, you have the stunning, panoramic, elevated views, some of the best onsite facilities, and only a short drive away from everything. When the area is developed we expect it to be one of the best places to live not only locally, but worldwide.

Sebastian Jiménez,
Managing Director of Aqua Estates

“ ”

(Talking about Real de La Quinta) "A high-quality resort that's sustainable for the environment, completely integrated with nature and transmits the lively and positive side of Marbella, alongside the innovative and practical smart living philosophy of Northern European countries".

Rick Volpe,
Architect and design consultant

“ ”

(Talking about Real de La Quinta) "From where we are you can see three countries and two continents...! That's just an astounding place to be, you don't find sites like that!"

Joseph Ginther, Architect.

“ ”

Vista Lago Residences is an excellent project that the market needed. The design of the villas is spectacular in every single way. We strongly believe that this project is one of the most impressive ones currently on the market. Vista Lago villas are timeless properties that can suit basically any type of buyer looking for a 21st century modern living on the Costa del Sol. I think that this project can perfectly suit a family, a young couple, a retired couple, etc. The countryside is becoming more of a sought after lifestyle, depending on the lifestyle the buyer is looking for. Unfortunately in Marbella it is difficult to be close to the sea and have a modern property. Sometimes the sacrifice to have an ultra-modern home is to go a little away from the coast. However, the views are breath taking and the properties are a good value for money as per their proximity to all amenities, views and design.

Margareta Stjernström,
Owner of Mas Property Marbella

“ ”

Panorama has always associated itself with the highest quality properties for sale in the Marbella area. BRIGHT developments represent quality on all possible levels: location, extraordinary design and attention to detail, highest quality in finishes and in customer service. And of course, with all the necessary legal guarantees. Quality is what this next decade is all about. Quality is what Marbella has always been about.

Christopher Clover,
Managing Director of Panorama

“ ”

A development to be really proud of. Nothing stands in the way of the view. In all 18 villas the windows slide into the wall, to bring the living area out into the terrace, becoming an extension of the house itself. Even closed, you see very little of the window frame. All villas are open plan, with no unnecessary walls in the living spaces and columns reduced to the minimum. Our design philosophy is to devote as much thought, cost and innovation to the interior of the houses as the exteriors. All the furniture in the villas has been chosen or designed exclusively for them, either by UDesign or by other top designers, and is thus unavailable on the open market. There is nowhere else like it in Europe.

Jason Harris,
CEO and Creative Director of
UDesign

“ ”

So there we have it, a brief roundup of the most talked about luxury development of the new millennium in Spain. BRIGHT are very proud of what they have achieved with this exceptional project, and happy knowing that what others truly think of them is who they truly are.

If you would like more information on Vista Lago Residences, contact the BRIGHT Sales Team, who would be delighted to arrange a presentation in their showroom, or arrange for a video call if you are unable to come to Marbella right now.
